

# Assessment That Jump-Starts Growth

# Key Features

## Introduction:

Developed in collaboration between the District School Board of Niagara (DSBN) and Vretta, The **Vault Assessment Suite** is a proven yearlong assessment-for-learning tool that supports educators in understanding student thinking, planning responsive instruction, and building a cohesive understanding and approach to instruction across classrooms and schools. Rather than functioning as a single test, the **Vault Assessment Suite** includes Trial, Springboard, Mid-Year, and Post Mid-Year components that provide multiple opportunities to observe how students think, learn, and apply skills in **Reading, Writing and Mathematics**.

Designed for Grades 3, 6 and 9, the **Vault Assessment Suite** is strategically designed to drive instruction for individuals, small groups, classes and boards. Fully aligned with the Ontario Curriculum, each component serves a distinct yet connected purpose: to surface student strengths and needs through curriculum-based questions reflecting a variety of strands, skills, difficulty levels and problem solving strategies.

Vault was developed by teachers for teachers, based on over a decade of trials and field testing.

## Engaging & Flexible Assessments:

The **Vault Assessment Suite** is crafted to enhance the student experience through thoughtfully designed tasks that promote active engagement and authentic demonstrations of learning. By offering flexible formats across its yearlong components, the assessment ensures students remain focused and motivated as they interact with tasks that reveal their thinking. This engaging and adaptable design supports deeper insight into how students understand and apply concepts in both Language and Mathematics.

Grade 3 Math

Grade 6 Literacy

## Authentic Learning:

The **Vault Assessment Suite** is curriculum-based providing flexible opportunities for students to demonstrate their learning through a highly intuitive platform. Digital tools such as speech to text, highlighter, and calculator are built into the platform, ensuring students are supported to show their thinking.

## Actionable Reporting:

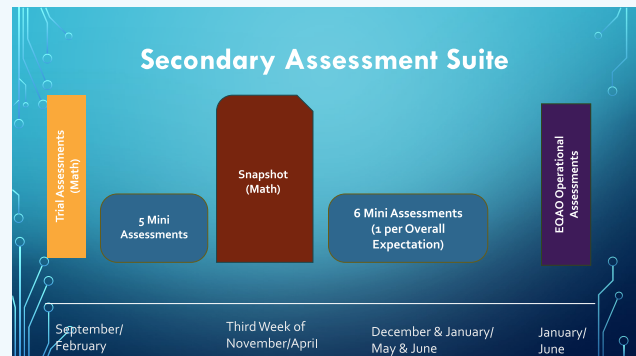

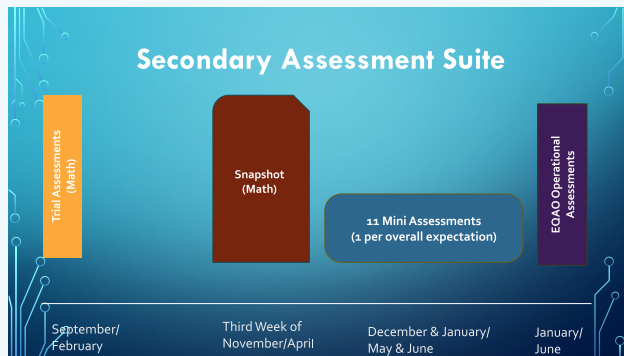

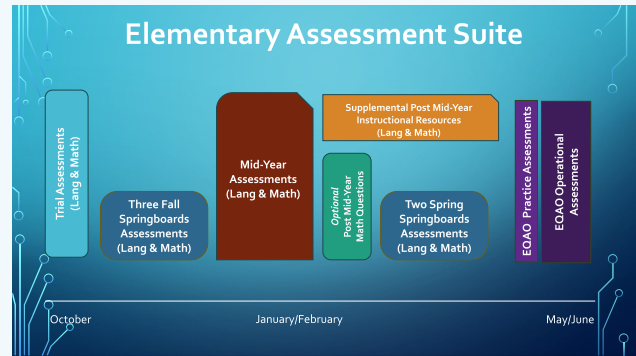

Educators gain access to intuitive reporting dashboards that summarize student performance at the individual, small group, and whole-class levels. These reports highlight emerging strengths and areas requiring further support, ensuring teachers can quickly identify instructional next steps.

## Curriculum-Aligned Items:

The content in the assessments are not only impactful and engaging, but are also designed to be clear, concise, while also using curriculum vocabulary. With a mixture of multiple-choice, drag-and-drop, to responses which students are required to construct and input themselves, the assessments truly create an inclusive experience.

## Yearlong Assessment Cycle:

The **Vault Assessment Suite** is designed as a continuous, year-round cycle providing multiple touchpoints throughout the school year to observe student thinking, monitor growth, and plan responsive instruction. Each assessment builds on the previous one, giving educators a clear and evolving picture of student progress and understanding.

## Accessibility and Security

The **Vault Assessment Suite** is designed to provide equal opportunity for all students. The system and content are designed to be perceivable, operable, understandable, and robust for all users, compliant with the principles of WCAG 2.2. Security is also at the forefront of the assessments, with stringent security compliance certifications (SOC 1 Type 2, SOC 2 Type 2, and ISO 27001) being maintained to ensure that the system and processes strictly adhere to privacy and security regulations.
